Liberal Majority In N. S. Election

An already overwhelming Liberal majority in the Nova Scotia provincial elections was increased to 14 Wednesday when the returning officer for Cape Breton East announced the election of L. D. Currie, Liberal, over D. R. Cameron, Conservative, by a slim margin of four votes.

The seat had previously been listed as doubtful. A re-check showed Currie to have 3,626 votes against Cameron's 3,622.

If this result is confirmed on declaration day the Liberal forces under the leadership of Angus L. Macdonald will have 22 seats in the next legislature with 8 representing the defeated Conservative administration of Premier Gordon S. Harrington.

High-Grade Cows Go For 25 Cent Horses 35 At Ballist Sale

Port Hope, Ont.—Two half-buff sales, proceeds of which totalled only \$38, attracted 1500 persons in this district recently. The sales were held at the farms of Fred Brown and Geo. Henderson, neighbors on the highway six miles west of here. At the former place 600 persons were present and proceeds totalled \$23. High grade cows brought 25c, calves the same. A binder and seeder were knocked down for 50c each. Nine milk cows brought 25c to 30c a head at the Henderson sale. Horses went for 35c to 40c each.—The Western Producer.

NOTICE

to customers of towns well — by paying cash you save half your cost of water.

Mossleigh News

A community Sunday School will be held in the Trego School at Mossleigh on Sunday afternoon at 3 o'clock. Adults and children welcome.

Mr. C. Segal made a trip to Turner Valley for gas on Wednesday.

John Antron and Walford Horgordon moved their combine from the Broker place to the Horgordon farm yesterday.

Irvin Daub made a flying business trip to Calgary last Wednesday.

Andrewoff Bros. have leased the Wm. Andrewoff tractor and will operate a thrashing outfit as well as their combine.

Girl Guide and Brownie Notes

Due to the water of the Bow River becoming polluted with typhoid, the swimming lessons for the Girl Guides and Brownies have been discontinued. The girls have made excellent progress and next spring intend to work for their swimming badge in real earnest. Mr. E. Lewendon supervised the lessons, ably assisted by Mrs. P. Talbot and the Misses Mary Dumka and Irene Hesketh. The leaders are very grateful to the instructors who helped with this work, and to the parents who helped transport the girls to and from the swimming pool.

Buffalo Hill News

Mrs. M. Earl returned last Monday from Calgary.

The Buffalo Hill School opens for the fall term on Monday, September 4th.

Grace and Freda Board are spending the week at W. G. Parrish's.

Miss Sadie Hannah, of Calgary, is visiting at the Earl home.

East bound, Wed., Fri., 1:30 pm

HAPPY VACATIONISTS

Master William Herridge, son of Hon. W. D. Herridge, Canadian Minister to Washington and Mrs. Herridge, and nephew of Canada's Prime Minister, Rt. Hon. B. Bennett, is seen here with his mother, both of them apparently enjoying themselves at Canada's great Maritime playground, the Katy's Cove beach of the Algonquin Hotel, St. Andrews-by-the-Sea, New Brunswick, where they are spending their vacation. Major Herridge joined them there for a while.

Opportunities and Responsibilities in Our Church District

On last Sunday evening the Young People of the Church of the Brethren gave a very inspiring and helpful program. One week previously the ladies had charge of the first half hour of the Sunday night service. Other programs are being arranged for succeeding Sunday nights. The service next Sunday evening will be in charge of the men, and will be presented as follows:

General Survey of the Opportunity in the District — S. M. Burger.

The Possibilities from the standpoint of Both Prepared and Unprepared Workers — J. H. Brubaker.

Male Quartette.

The Church's Endeavor to Meet the Need of the District Conference from the Moral Standpoint.

The Local Church's Moral Responsibility — C. Culp.

Individual's Moral Responsibility — Earl Haap.

The Church's Endeavor to Meet the Need of the District as Outlined by District Conference from the Financial Standpoint.

The Local Church's Financial Responsibility — L. Larsen.

Individual's Financial Responsibility — Jack Beagle.

Male Quartette.

Reading — G. Sauter.

Each speaker is allowed five minutes for his topic.

Summer School Attendance

A total attendance of 570 was recorded at the annual teacher's summer school just closed at the University of Alberta. This compared with 581 last year. The school was operated jointly by the university and department of education.

For SALE — Ford Model T Light Delivery for \$35.00, in good condition. New rear tires and new radiator, apply, C. L. Archambault.

A workman at the farm of Roy Shouldice, met with a serious accident last week when he fell on a pitch fork, the handle penetrating the lower part of his body. He was hurried into town where he was attended to by Dr. E. J. Liesemer.

Mr. A. Hudson met with a painful accident last week when he had his finger crushed so badly that it was necessary to have it amputated. At the time of going to press we learn he is doing well.

The Arrowwood Consolidated School District will not accept any outside students for the term starting September 5th, 1933. Only children of bona fide residents will be accepted. School hours starting Sept. 5th, until further notice, 9 to 12 and 1:30 to 4.

Arrowwood Notes

Cucumbers for pickling. Call Lyle Farm, R108.

AGED EWES FOR SALE—\$1.00 per head. Apply, E. B. Doten.

Howard Traxler of Milk River, formerly of Arrowwood, is visiting with Malcolm Taylor.

Mr. J. V. Henderson, of Red Deer, spent last week-end visiting his family here.

Mrs. L. S. Mitchell, of Turner Valley, is visiting with Mr. and Mrs. R. R. Saunders.

Miss Wills Leith is confined to her bed with an attack of bronchitis.

Larsen Implements delivered Twin City tractor to Mr. Sam Sammarini, who lives West of Arrowwood.

Doris House, Carl Dumka and Bobby Thompson had their tonsils removed last week at Dr. Liesemer's surgery.

Miss Edna Beagle returned home Sunday after a visit spent with her sister, Mrs. J. Mackin, at Carleton.

The many friends of Doris Miller will be glad to know that she is improving since her recent illness.

Miss Rosemary Lord returned Sunday night from Carleton Place where she had been visiting at the home of her aunt, Mrs. Sawyer.

Miss M. Mitchell returned to her bank duties on Monday after spending her holidays with her parents.

The Misses Marjorie and Gladys Leonard returned last Sunday from Youngstown, where they had been visiting with friends.

Mr. A. Horning received a telegram Wednesday morning conveying the sad news of the death of his father, which took place at Instow, Sask., that morning.

Mrs. Ernest Mason, who has been visiting with Mr. and Mrs. John Mason, returned to her home in Calgary on Wednesday. She was accompanied by Mrs. A. Phillips.

Mr. and Mrs. C. G. Taylor and Mr. and Mrs. H. Bishop visited over the week-end with Mr. and Mrs. J. R. Shearer, in Black Diamond.

The Arrowwood Community Club will meet at the home of Mrs. G. F. Kemper on Tuesday afternoon, September 5th. The program of this meeting will be published next week.

Mr. H. McCulloch spent Tuesday in town and was accompanied back to Aldersyde on Wednesday by Floyd Cary who will visit with him for a few days.

Rev. John Wileand and family left last Tuesday for Calgary and points west. They will spend a few days at Banff National park before returning home.

Huge King Kong Makes City Sag

Kong, immense prehistoric ape who is the menace in the fantastic RKO Radio Picture, "King Kong," featuring Fay Wray, Robert Armstrong and Bruce Cabot at the Arrowwood Theatre, Friday, Aug. 25, is one of the most terrifying villains that ever made a cameraman shudder. Certainly he is the largest.

He is fifty feet tall. His tread shakes the earth, and his hands are capable of crushing an airplane to matchwood. His strength had flourished since the time man was born and Hollywood was a grazing ground for the brontosaurus and the typosaur. He ruled by the right of might, the last island that had been left behind in the windy track of the centuries.

But the thing that bewildered Kong, king of his realm, was the never-before experienced emotion of tenderness that thrilled in his savage breast when he saw Beauty for the first time in the form of a woman. It led him into battle with prehistoric monsters for her—and it led him to his doom when he tried to lay New York low—to wipe out this, to him, weird thing called civilization.

High School Courses By Mail

For some years the provincial department of education has conducted correspondence courses in the elementary grades of school for the convenience of those unable to attend a school. Some 2,500 or more chiefly those in outlying parts of the province, have taken advantage of these. It is now the purpose of the department to extend these courses to include instruction in all four grades of high school work with the exception of commercial and technical courses. A small fee of \$5 per unit taken will be charged to cover administrative costs.

Judge Fines Himself

Makes Penalty Light Because It Was His Birthday

Under the Chicago system, Judge takes turns sitting in the various courts, and a recent Monday was Judge Eugene J. Holland's first experience in the traffic division.

Immediately after Holland took charge, the clerk announced the first case as follows:

"City of Chicago vs. Eugene J. Holland."

Judge Holland sat up very straight and very suddenly.

"What's this?" he asked of the clerk, thinking perhaps that a joke was being played to initiate him into his new environment.

The clerk explained that the case involved a parking charge which was several days old. Holland then recalled that he actually had received a ticket.

"Well," he said, smiling, "this is my first day in traffic court. It also is my first case here. It also happens to be my birthday. So I'm going to give myself a break. I therefore fine myself \$1 and \$1 costs."

Take Tremendous Chances

Aviators Flying Hours Without Rest

Captain James Molison and his wife, Amy Johnson, both of the Royal Air Force, left England, Wales, with the intention of flying non-stop to New York. Their plane was brought down at Bridgeport, Conn., not far distant from the objective, but the thing cracked and Molison and his wife were injured.

In speaking of the accident, Molison said: "I was so tired I didn't know what I was doing. I had been in the air 29 hours."

Wiley Post, who finished the globe circling trip, said that he had made at least twenty times between Edmonton and New York, "that being a hop of 2,200 miles."

There is probably no law which says that people who go on long flights must stop now and then. In speaking of the accident, Molison said: "I was so tired I didn't know what I was doing. I had been in the air 29 hours."

Wiley Post, who finished the globe circling trip, said that he had made at least twenty times between Edmonton and New York, "that being a hop of 2,200 miles."

How the Rule Works

National Problem Doubly Eased When Man Obtains Job

As a national problem a man thrown out of work only half the mischief done. It means one less worker to carry the burden of one more dependent. Fortunately, the rule works the other way when it comes to increased employment. A man in a new job means for the whole nation one more worker to carry one less dependent.

Supposing that at the depth of the depression in March we had 12,000,000 persons idle, it would mean that we had 36,000,000 persons at work. We had three people with jobs to carry one without a job. If today employment has increased by 1,500,000 jobs, it means we nearly 46,000,000 persons at work. We have almost five workers to carry one idle person. The social burden is almost cut in two—New York Times.

Makes a Difference

No Music in Thrashing Machine When Crops Are Poor

There is not much music in the thrashing machine in these hopeless years. Its engine has a monotonous chug. The grain that pours out of its spout is small in quantity. The straw that pours from it easily finds room for itself in the yard. This lack of a prosperous look makes it dust more oppressive. The sick, toiled men about the machines are alien, and the rest are talking politics in respectful tones. For no matter how bright the pointing crops when they fall together, spoil the harmony of the thrashing machine.

A letter enclosing payment for taxes in England is just being delivered to the tax office in England, England.

A clever scientist claims to have devised a means of producing rain at will. We still prefer the old English method of holding a pipe.

Argentina's use of tobacco is increasing rapidly.

WIFE'S DELIGHT AT HUSBAND'S LOSS

30 Pounds of Fat!

Here is something all wives of fat men will be glad to know. It is the experience of a woman whose husband recently weighed 320 lbs. She writes:

"I really feel I must write and tell you that, after taking Kruschen Bath for nearly 3 months, my husband has got his weight down from 320 lbs. to 260 lbs. This has been achieved by nothing else but Kruschen. I am too heavy also, and I started taking Kruschen only three weeks ago, and already I have got down from 163 lbs. to 144 lbs. We are delighted!"

(Mrs. C.) Kruschen combats the cause of fat by assisting the internal organs to perform their functions properly—to throw off each day those waste products and poisons which, if allowed to accumulate, will be mastered by the body's chemistry into fatty tissue.

Eskimo Slaying

Village Had Man Killed By Other Members Of The Tribe

Story of the slaying of an Eskimo village "bad man" by other members of the tribe. The slain man had been port received at Royal Canadian Mounted police headquarters at Ottawa from Inspector T. Sandys.

Wounded on board the Northern supply steamer "Nascope." On-Shoak-Juke, an Eskimo who 13 years ago killed a fellow-aborigine at Cape Dorset, in Baffin Land, now, after six months, when his wife was taken by a trio of Eskimo men, whom On-Shoak-Juke had been threatening.

The dead native was regarded as a man. He had shot at his wife some time before his own death. It was apparent reason he had informed the three men who eventually killed him that he intended shooting them.

The trio forestalled him, and took the law into their own hands. They decided that the tribe would be better off without On-Shoak-Juke, and forthwith shot him.

When Inspector Sandys-Wuhsel reached Wotsenholme on board the "Nascope," the tribal members and all interested parties were produced and an inquiry set on foot. The inspector informed headquarters that a complete report would be mailed when the "Nascope" reached Moose on her homeward trip.

Nothing To Worry Them

Newfoundland Is Lucky To Have Backing Of Mother Country

It may be a bit of a shock to Newfoundlanders the pride that for a time they are to have their dominion status virtually taken away from them and the country placed under a commission which will perform all the essential functions of government. This at any rate, is the recommendation of Lord Amulree's commission which came out to Newfoundland to investigate, and it is likely to be adopted.

Supposing that at the depth of the depression in March we had 12,000,000 persons idle, it would mean that we had 36,000,000 persons at work. We had three people with jobs to carry one without a job. If today employment has increased by 1,500,000 jobs, it means we nearly 46,000,000 persons at work. We have almost five workers to carry one idle person. The social burden is almost cut in two—New York Times.

Britain May Capture Coveted American Cup

New All-Steel Cutter Revives Hope Of Sportsmen

A beautiful new streamlined racing cutter, winning race after race by spectacular margins, suddenly has revived British hopes of capturing the American cup.

The cup—"that old mug" so persistently pursued by Sir Thomas Lipton for 33 years—probably is now covered by British sportsmen than any other trophy in the world. Why Britain never has been able to regain it since it crossed the Atlantic in 1851 is a riddle.

But Britons believe that the answer has been found in "Veldeha," ultra-modern all-steel creation of Charles E. Nicholson, who designed the last two Shamrocka for Sir Thomas Lipton. "Veldeha" embodies all the lessons Nicholson learned from the defeat of "Shamrock V," but British yachtmen believe Sir Thomas Lipton's "Enterprise" in 1850.

The success of the new cutter has made it almost certain that her owner, W. L. Stephenson, will race the picturesque and beloved Sir Thomas as challenger for the cup. Stephenson, chairman of the British subsidiary of P. W. Woodworth & Co., named the yacht after his three daughters, Velma, Sheila and Diana.

No contest could be held this year, since the challenge must be made at least nine months before the race, but British yachtmen believe Stephenson will issue it in the fall if "Veldeha" keeps on winning. In the great Scottish racing festival, known as the "Clyde Foursight" which ended, "Veldeha" won five firsts and three seconds out of nine races over the Clyde.

"Veldeha" kept on winning. In the great Scottish racing festival, known as the "Clyde Foursight" which ended, "Veldeha" won five firsts and three seconds out of nine races over the Clyde.

The Other Club

Distinguished Organization In London Celebrates Fifty-First Birthday

One of the most distinguished dining clubs in the world, known as "The Other Club," has just celebrated its 51st birthday by a dinner at the Savoy Hotel, London, England, among the guests being Sir William Jowett, former Attorney-General, and Lord Kysant, former President of the Federation of Chambers of Commerce of the British Empire. General Jan Chastina Smutts, South African statesman, presided at the coming-of-age party.

The club, founded by Winston Churchill, and the late Lord Birkbeck meets once a fortnight for dinner in a private room at the Savoy during the time that Parliament is sitting. It was intended to provide a round whereon political opponents might meet. One of the rules is that "nothing in the intercourse between the members shall be allowed to interfere with the full appliances of party politics."

Wheat Exports

July Was A Banner Month For Canadian Farmers

Measured in dollars and cents, July, 1933, was a banner month for the Canadian farmers. Canadians sold 16,879,200 bushels of wheat in world markets, receiving \$12,302,600, an average of 73 cents a bushel. The average return in July, 1932, was 57 cents and in July, 1931, 61 cents. In July last year, the export of wheat—19,650,300 bushels—was high—this year, but the price was low. \$11,209,600 was considerably lower, making the average price 57 cents a bushel. In July, 1931, 12,000,000 bushels were exported at an average price of 61 cents a bushel.

About 426,000 different kinds of insects are known and several thousand new ones are discovered each year.

Smoke Best

Ambassador To Russia

Viscount Chilton To Represent Britain At Moscow

The king has approved the appointment of Viscount Chilton as ambassador to Russia, succeeding Sir Esmund Ovey. His majesty received the new ambassador in audience at Buckingham Palace.

Lord Chilton has been minister at Budapest since 1928. He will leave for Moscow in September, when for the first time since March 30 the United Kingdom will be represented in Russia by a full-fledged ambassador.

Not Good For Business

Wheat At Low Levels Keeps World From Prosperity

British millers and corn merchants do not want wheat to remain at a low price. Sir Albert Humphries, representative of Old Country millers, in fact, told delegates to the World's Grain Conference at Regina, "It is not good for the producer, miller or the people as a whole for wheat to remain at low levels." Sir Albert stated, "If agriculture in the widest sense can be made prosperous, then the whole world will very shortly become more prosperous as well," he added.

Lessons Of The World Grain Show.

The great World Grain Exhibition and Conference has become a matter of history, but to the thousands of visitors who were privileged to view its wonderful display it will long be remembered as one of their most delightful and instructive experiences. Western Canadians, in particular, who had never had the opportunity of visiting the other provinces of their own Dominion must have been deeply impressed with the variety, magnitude and richness of the resources of their country, and to have obtained through the various provincial exhibits a renewed confidence in the future of Canada.

A tour of the British Columbia exhibit could not fail to have impressed one with the amazing wealth of resources in that great province. Divided into three sections, the exhibit depicted first the forest and mineral wealth of the Pacific Coast province; then the magnificent fruit products, with their attractive orchard scenes, and finally the fisheries whose products are known and in demand the world over.

Or, jumping over the prairie provinces and into Ontario, the visitor found, not an amazing display of manufactured products from that great industrial province, but they were impressed with the wealth which is being produced from the mines of the province as indicated by the thousands of dollars' worth of minerals on display. They learned how Ontario was proceeding with a vigorous reforestation policy to maintain its forest wealth, how forest fires are fought, and other steps taken to conserve this great natural resource.

Studying the Quebec exhibit, depicting the quiet pastoral life of the people away from the industrial centres, one could not fail to get a new understanding of the quiet province, and to realize what a striking influence it is bound to exert upon the national life of the Dominion. The teaming commerce on the mighty St. Lawrence, its great maritime ports, with the most intensively cultivated farms stretching back from the river banks, all conveyed a picture of beauty, strength and progress, the homes of contented thrifty people.

To visitors from other provinces and countries, the exhibits of the prairie provinces must have been a revelation indeed. Holding the view, as undoubtedly many visitors did, that these provinces produce nothing but grain and other agricultural products, they certainly had their ideas expanded. Manitoba devoted its exhibit to a display of the wild bird and animal life of that province, extending from its southern prairie fields to the Arctic circle. It was one of the show exhibits of the Exhibition and people stood before it in interested crowds lost in admiration.

Alberta demonstrated that it could grow wheat by carrying off the world's wheat championship, but it also let visitors know that 14 per cent of all the coal supplies in the world were located within its borders, that it produces tens of millions of pounds of beet sugar annually, that its lakes and rivers teem with fish, that its timber areas are very large.

And Saskatchewan, popularly known as the "bread basket" of the Empire, which in normal years produces more than one-half of all the wheat grown in Canada, and more than any other single province or state in the world, surprised everybody with its wonderful exhibit of huge logs and its timbered regions, its many varieties of fish, and big fish at which would credit to a province by the sea, its mineral wealth of coal and clays in the south and richer metals in the north, its wild bird and animal life, its scenic beauty.

The usually accepted picture of the prairies as flat, uninteresting fields of grain, and nothing else, was dispelled by these truly wonderful exhibits. Even to the people living on these prairies they were a revelation. And to unite the whole were the comprehensive exhibits of the Dominion Government revealing in all their richness and variety the magnitude of the resources and products of Canada.

But why recall these things now the Exhibition is over? Because one of the objects of the Exhibition was to bring this knowledge in its most interesting and fascinating and compelling form to the people of Canada and the world. Seeing is believing, and those who saw Canada on parade at Regina cannot fail to have been impressed and convinced of the development and prosperity which the future has in store for this Dominion, and for every part of it.

And such conviction was reinforced by the peeps into the past which were also afforded. One had only to stick their head through the window of the old Hudson Bay trading post and examine its contents, or gaze upon the means of transportation in the days of the pioneers—not so very long ago at that—the old Red River cart, the dog sled, the Equino horse, and contrast them with the great Hudson Bay stores at Winnipeg and Calgary, to mention only two, and with the C.P.R. and C.N.R. exhibits and the automobile exhibits of modern means of transportation, to appreciate the fact that Canada has made amazing progress in the short span of its national existence. Such progress offers but a glimpse and a promise of the still greater progress and development that is to be.

Thus in the midst of a depression which has to some extent at least shaken the confidence of our people, the World Grain Exhibition came with its wonderful and beautiful story. It also brought a message. It is not a message of despair, but of hope. A message that, trying and difficult as times may temporarily be, they are after all, only temporary because a nation with such resources, with such culture, with such virtue and progressive people, cannot fail to surmount any and all difficulties. Canada is for the moment caught in the maelstrom of world events and conditions beyond our control, but it will win through and rise to greater, grander heights than ever before.

Gum boots formed an important item of Canadian export, and last year in England alone, was just land during the first three months of the current year.

The word "tax," we are told, comes from the Latin "taxare," meaning "to touch lightly." No further wisecrack is needed.

The world is too small for the man who knows it all.

Bowel Complaints of Children During the Summer Months

Mothers should look well after their children during the hot summer months. Despite all they say, the children may be seized, at any time, with diarrhea, colic, summer complaint, or other forms of bowel trouble.

There is a safe remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has restored the bowels of thousands of Canadian mothers during the 38 years it has been on the market. Don't experiment. Get Dr. Fowler's and be on the safe side.

Manufactured only by The T. Millers Co. Ltd., Toronto, Can.

Only Firestone

Gives You All These
EXTRA VALUES

—and at No Extra Cost

Year after year Firestone has led the way in giving car owners extra tire values to save them money. Now Firestone gives you an amazing new guarantee which fully protects you for twelve months against any condition that may render a Firestone Tire unfit for further use as a result of blowouts, cuts, bruises or any other road hazard excepting punctures or running the tire flat.

For this alone it would pay you to buy Firestone—but, in addition, Firestone is the only tire that can give you all these extra values:

1—Two Extra Cords Under the Tread.

2—Gum-Dipped Cords.

3—Balanced Construction.

4—Non-Skid Safety Tread.

As a result of these extra features Firestone gives 25% to 40% longer tire life—no extra cost.

Low Priced Tires. If you want a low priced but dependable tire, ask for the Firestone Oldfield. As good as most first line tires, but costs 20 per cent. less. Made by Firestone and guaranteed for 12 months.

HARDWARE

Arrowwood — Alberta

It may be just a jagged tooth or an ill-fitting denture which has kept up a constant irritation of the delicate lining of the mouth until the spot has become an ulcer and refuses to heal. Or, again, perhaps it is that constant pain in the back which seldom is kidney trouble as is popularly thought, but may be due to disease in some organ. The repeated pain and distress in the stomach, particularly after eating, may have been the slight ailment complained of in the history of the majority of cases of gastric ulcer. There is nobody with this disease at the present time who would not if he could, exchange his disorder for the opportunity once afforded him of a more carefully supervised diet or medical attention to this "slight ailment" earlier in life.

The same may be said of a great number of diseases. Instances without number might be noted. Not all diseases come "like a bolt from the blue" most of them show, in various small ways, the beginnings of what, with neglect, will give rise to a life of suffering and chronic disorder for which there may be little hope of permanent recovery.

Cheerful people, says a doctor, resist disease better than glum ones. The surly bird catches the germ.

A duck hunt in the once private lake of the Chinese Emperors in the Forbidden City of Peking with a Chinese general as host and armed soldiers as guides was the experience described by the Earl of Onslow, who arrived at Vancouver recently in the Empress of Japan from a seven-month tour of China.

Paradise Valley, east of Lake Louise, in the Canadian Rockies, is the site selected for this year's summer camp of the Alpine Club of Canada from July 18 to 31. Some of the most spectacular scenery in this region will be covered by the club—including the unclimbed peak of Mount Etzel, in the shadow of which their camp will be pitched.

Close on 550,000 people viewed the crack London, Midland and Scottish, over the "Royal Scot" on its way to the Chicago World Fair, as it passed through Montreal, Ottawa, Toronto and Hamilton on Canadian Pacific lines. Re-assembled at the C. P. R. Regus Shops after landing from the fast freighter Beaverdale, the Royal Scot passed through eastern Canada in a veritable triumph.

Here and There

An orchard consisting of only one tree which has borne 1150 different varieties of apples and one variety of pears by means of careful grafting, is located in Eastern Canada. This season 17 varieties of apples put forth blossoms.

Canada produced 1,584,845 ounces of silver during March, as compared with 1,397,154 ounces in February and 1,450,137 ounces in March 1932. 3,576,818 ounces were produced during the first quarter of 1933, a 17 per cent. decline as compared with the same period in 1932.

Hon. Frank L. Polk, acting secretary of state for the United States in 1918-19, well-known corporation lawyer and director of many companies including the Chase National Bank and the Northern Pacific Railway, is staying at the Bluff Springs Hotel with his family for the summer vacation.

More than quelling expectations of the New York-Montreal cruise of the Duchess of Bedford, set a new holiday record for special trips recently when 300 passengers took the excursion. They noted a romantic moon every night and a picturesque run down the St. Lawrence, the passengers disembarked steadily at the rate of three in the minute for five hours.

Wheat-cutting is now general in Manitoba and under way in the other prairie provinces, according to a recent weekly report issued by J. M. McKay, general agricultural agent, Canadian Pacific Railway, Western Lines. There is still, however, great need for further moisture, especially in the central and southern parts of the grain-growing provinces.

Fresh from a victory in which he carried an appeal for a Chinese sentence to hang to the Privy Council, ending in commutation to life imprisonment, Rev. Father Joseph S. Duquesne, of Maryknoll, N. Y., landed at Vancouver from Hong Kong aboard the Empress of Canada recently. He was frankly pleased at his success in the role of priest-lawyer, but his only comment was: "We try to help where we can."

Secking the big fish he missed catching when he was unable to accompany the Majestic the King and Queen of Spain to Campbell River in September 1931 during their Canadian-American tour, Brig-General E. de B. Panet, chief of the Canadian Pacific Investigation Department, is on a trip to the waters of the fighting (yes, one of the prize game fish of British Columbia) lakes and streams.

Cultural and educational relations in the Pacific will be stressed at the fifth Biennial Conference of the Institute of Pacific Relations to be held at the Banff Springs Hotel, August 14-23, though economic problems will naturally be to the fore in the discussion, stated Miss Elizabeth Green, editor of the Institute's Journal, on her arrival aboard the Empress of Canada at Vancouver recently en route for Banff.

An aeroplane travels 10 to 15 miles in writing a two word name in the sky.

Second Milestone Passed

This week the Bow Valley Resource begins its third year. When Norman G. Cary decided to cast his lot amongst us there were those who were skeptical and thought that he would not be able to continue, but Mr. Cary has labored hard and faithfully and is deserving of more support than he has been getting. His paper is a credit to our town and compares very favorably with publications of larger towns in this district. We should soon be turning that long-looked-for corner and when we do, we will all be glad that we gave this important adjunct to our city, the support that he did.

Our red distillate is meeting with approval from those who have tried it. It is a heavier gas than the unrefined product and still the motor will start on it readily, you will get more power out of our red distillate per gallon than you will get from unrefined gas. It is not too early to begin to think about your coal bin. A ton of coal in your bin comes in handy and if we can make up a load we will be glad to serve you from the Cluny mines. We have anything, anytime anywhere and will endeavor to serve you promptly.

"Mary" said Mrs. Newrich to the new maid, "You may take the dog out and give him some air."
"Yes Ma'am" answered Mary "and please ma'am where will I find the nearest service station?"

DELAY OR NEGLECT

The consequences of delay or neglect are seen every day. Neglect is as frequently a sin of omission as of commission. Nobody appreciates the value of fire insurance more than the individual whose home has just burned down and who finds that he has not neglected to pay the last premium.

Similarly, the loss of a breadwinner is somewhat assuaged when his family know that, through life insurance, they have not been left penniless and dependent upon charity. An insurance policy is with health. Delay in obtaining sound advice and neglect in securing attention for what appears to the individual to be a minor ill or all too frequently admitted by people who first go to their doctor with the late symptoms of some grave disorder. Gradually the symptoms of some grave disorder. Gradually the symptoms have become worse until the victim, forced by the acuteness of his suffering or the entreaties of his friends, goes to seek that aid which offers its greatest hope of cure in the early stages.

The New Goodrich Safety Silvertown

WITH LIFE-SAVER GOLDEN FLY

We were certainly amazed when we saw the tests on this new tire. We hardly thought it possible for any tire company to make a tire that would stand up under heat and continuous wear and abuse the way this one does.

In addition to all its other features of safety and durability, every new Goodrich Safety Silvertown has the amazing new Life-Saver Golden Fly. It resists terrific heat. Fabric and rubber don't separate. Blisters don't form inside the tire. Blow-outs are prevented. Prop in today and let us show you a cross section of this amazing new tire. It costs no more than other standard tires.
